

Vaya Linear Louvers

Control glare without sacrificing light output. These louvers cut off at 45° each side for effective glare reduction, while allowing wide angle spread between LED optical centers with lower transverse light control vanes.

For Use with:

Philips Color Kinetics Vaya Linear LP
 Philips Color Kinetics Vaya Linear MP

Vaya Linear Louvers slip snugly over the luminaire body, and are securely retained with stainless steel locking screws each side.

Constructed from galvanized steel and painted with flat black epoxy powder coat for low reflectivity and excellent durability, inside or out.

Part Number	Description	✓
